HIS BELL'S NOISE COSTS \$100. Manufacturer Fined for Din Made by Burglar Alarm.

11,960 142,000 24,000

Mrs. Edith Schock, 139 West Twenty second street, doesn't object to anything reasonable in the way of noises but when a burglar alarm across the street starts in making an infernal din at 4 o'clock on Sunday afternoon and keeps up the acket, without intermission, until 8 racket, without intermission, until 8 ociock the following morning, she thinks it time to put her foot down. That is what she told Mngistrate Marsh in the Jefferson Market court yesterday, when she appeared as complainant against Louis Ginzburg, president of the Law bence Dress Company, directly opposite her home. It all happened June 22, she said. Ginzburg was found guilty of vio-lating section 1530 of the penal code and

District Attorney Swann, who recently issued a statement in which he declared war against burgiar alarms, appeared personally as prosecutor. He said his office had received at least 500 complaints against the contrivances, which he declared were not effective as they were not connected with police headwere not connected with police head-quarters and merely aroused the neigh-borhood and warned the burglars,

SEVEN HELD AS ROBBERS.

Negroes Accused of Recent Robbertes in Harlem.

Seven negroes, accused of being mem bers of an organized gang who have been robbing collectors and insurance agents in Harlem, were held for special messions or for further hearings by Mazistrate McQuade, in the Washington Heights court yesterday. John C. Bennett, 58 West 139th street,

entered a plea of guilty to robbery and was held for special sessions in \$10,000 ball. The same ball was fixed in the case of Edward Green, 240 West 64th street, held for the grand jury. Detectives told the court that Max Packer, 2200 Eighth avenue, had identified the prisoners as the two men who robbed him in a hallway at Lenox avenue and

COTTON PRICES GO TO HIGHER GROUND

Broad Recovery in Afternoon FUR PRICES SHOW Overcomes All Weakness of Morning.

Final Eids Are From 40 to 63 Points Up as Wall Street and Trade Buy.

Spot cotton quiet, with sales of 2,000 bales, including 2,000 American. Imports 23,000 American 21,000 Futures opened steady at 11 to 51 points advance. Closed steady at 55 to 65 points advance. July 21,00 October 21,23; January 20,98; March, 20,28, Manchester-Yarns hardening; cloths good demand.

New OBLEANS, July 14.-New highs were reached again in the cotton market to-day. July sold up to 35.50c and Octo-ber to 25.1c. December touched 35 cents The close: January, 34.87c.; March, 34.86c.; July, 35.50c.; October, 35.08c.; December, 34.92c.; spot steady; middling, 24.75c. middling, 34.25c.

MEN AND MONEY NEED IN CANADA

Policy of United States Finds Support in Cobalt.

Special Correspondence to the Canadian Section of THE SUN. Conalt, Ontario, July 14.- We must | Suit Designers Seek Increase.

inance Canada for our own sake no least than for Canada's," said an editorial re-printed locally from the New York Sun printed locally from the New York Sun and which aroused considerable interest. The rich gold and sliver areas of the north are deeply interested in any move for improved financial conditions between the two countries; for upon the mostly of generality which the between the two countries; for upon the measure of generosity which the United States leaders show to Canada depends the development of the great mineral wealth of this section.

This fact is indicated by a review of the different mines operating in the various fields of the north country. This shows that practically all the big mines

controlled either in Buffalo or in York, Many of the others which are controlled in Canada have a large portion of their stock held in the United States. Few, if any, of the mines are controlled solely in Canada or in Great Britain. For example, the following list shows

For example, the following list shows the New York controlled mines: Boston Creek Mines, Dome Consolidated, Dome Extension, Dome Mines, McIntyre, Contagas, Kerr Lake, Nipissing, Temiskaming and Trethewey. Buffalo controlled: Dome Lake, Hunton Kirkland, Kirkland Lake, Buffalo, Lake Shore, Teck-Hughes, Adanac and Wetlauffer. These are only the larger mines and These are only the larger mines and the course of development. There are many other smaller fry which may come along later and send the United States total soaring.

MISS ROTHENBERG ON JOB.

Miss Rose Rothenberg, who has been named as an Assistant District Attorney

LIVE TOPICS OF THE COMMERCIAL WORLD

AN UPWARD TURN

MARKET STEADY AT END Resumption of Trade With Germany Is Given as One Cause.

and Trade Buy.

Prices showed an upward trend at the auction sale of raw furs, which opened yesterday in the salesrooms of the Metropolitan Fur Exchange, 108 and tured by a broad recovery in the afternoon session, which overcame all early weakness and carried the entire list arealy to new high ground for the pres-

noon session, which overcame all early weakness and carried the entire list again to new high ground for the pressent contracts. Silent but steady buying by Wall Street operators contributed to the rise and trade support was also good. The market at one time was notably bare of contracts.

Factors as they appear at present are still greatly in favor of bull elements. Although the weather is showing considerable improvement throughout the beit it will have to continue to do so in order to help crop growths to any extemt. The upturn crowd is watching with eagerness the increase in exports to the other side. They are more than 1,000,000 bales above figures for the same time last year and are growing daily larger. There was some slackening in business yesterday on account of the nearness of the Government report on the domestic consumption for June figures of which will be issued this morning at 10 o'clock.

Belt conditions were yesterday generally clear, with moisture light and scattered over a small area. Temperatures, however, continued somewhat above normal. The action of Liverpool indicated a perfectly healthy market there. Options opened better than due and held their own throughout the session, closing sharply higher. Spot business was slow, but prices were up. Liverpool interests were not active in our market.

At the opening here prices were 15 points higher to 2 points lower, July statistic higher to 2 points lower, July statistic higher to 2 points lower, July statistic here is still much unress.

Ordnance Silk Bids Rejected.

Because they were considered too low, all bids for the 17,000,000 yards of so-called army ordnance silk offered for sale by the Government have been rejected, according to an announcement made year.

Paul, W. M. and Annie K.—H. on manufacturers by buyers, and by the manufacturers by buyers, and by the same token the demand imposed on restailers by their customers is far greater tailers by their customers tailers by the customers

Weaving Yarns in Demand.

NEW BEDFORD, Mass., July 14 -The yarn market continues strong, with a good demand for weaving yarns. Prederick B. Macy & Co. report that owing to the well sold up condition of the cloth mills and their ability to operate more looms than usual they do not have any surplus yarns to sell, and in consequence it is hard to get some numbers of combed yarns in this market.

New Post for Justin Henderson. Justin Henderson has resigned as manager of the investigation and prosecution department of the National As ociation of Credit Men to go with the C. D. West has succeeded him.

Greater Demand for Cotton Shirts. Silk shirts for men have run their race as a mark of distinctiveness in dress, according to some wholesalers and manufacturers here. Time was when they were paraded for an occasion demanding something out of the ordinary, reserved for Sunday, holiday and "dress un" wear.

High Heels and High Prices for Fall Shoes

Boston, July 14.—Exhibits at show which opened here to-day indicate that high heels and day indicate that high heels and high prices will feature women's footwear for fall. The Louis heels are from 2% to 2% inches high and are curved to the extreme.

Despite the reports of a shortage of materials, the boots are higher, nine inches being the smart height. Lasts are long and slender. Kid is given first choice, patent leather second, while footwear developed in glossy black satin is prominent.

Price increases of from \$2 to \$5 are predicted.

directors of the Chemical Foundations. Inc., were disinterested in their effort to foster the American dye industry.
